Quality service defined by our people

Silver is a development and construction consultancy offering a fully integrated service delivery in the best interest of our clients.

Our quality control service aims to achieve a high standard of workmanship for schemes undertaken by our trusted Site Inspection Team to deliver a quality built asset and ensure value for money.

We work on a range of residential and mixed-use developments across all London boroughs, the south-east and Home Counties. Our service includes:

- Clerk of works
- Site inspection
- Quality monitoring
- Aftercare / defects management
- Drawing audit (Buildability)
- Snagging and desnagging
