Introduction

Welcome to the 2022 – 2023 Directory of self-employed, freelance and private practice Clerks of Works and Construction Inspectors.

The Institute of Clerks of Works and Construction Inspectorate of GB Inc. (ICWCI) believe that it is important that employers check the credentials of those who apply for positions as Clerks of Works (or similar roles), in particular if they declare to be members of a professional body dedicated to their profession.

On previous occasions, the unsavoury practice of claiming false membership has been brought to the Institute’s attention, therefore we urge you to notify the ICWCI if in your search you come across a similar situation.

Whilst we cannot guarantee the services of the companies or individuals that advertise in this directory, we do expect them to provide a professional service of the highest order, in line with both the ICWCI Code of Conduct and the Institute’s motto – “Potestate, Probitate et Vigilantia” – “Ability, Integrity and Vigilance.”

If you would like to check the status of an individual claiming to be an ICWCI member (i.e. using the designations: LICWCI, MICWCI or FICWCI); or if you have a question for the Institute, please contact us using any of the following contact details:

By post: ICWCI Headquarters
28 Commerce Road,
Lynch Wood,
Peterborough
PE2 6LR

By telephone: 01733 405160

By email: info@icwci.org

Online: www.icwci.org

Why appoint a Clerk of Works

No matter the type of construction project, the need for a high degree of regular quality monitoring via systematic inspection is as important today as it has ever been.

The ICWCI firmly believe that Clients should appoint competent construction inspection practitioners to help protect their interests. Clerks of Works / Construction Inspectors / Site Inspectors play an integral part in a construction team with a responsibility to deliver a quality product.

Although the job titles of ICWCI members may vary, the principles for carrying out their duties are very similar.

The ICWCI define the role as:

“A person whose duty is to superintend the construction and maintenance of buildings, or other works for the purpose of ensuring proper use of labour and materials.”

There are various professionals, companies, practices and sectors that should appoint Clerks of Works. To name a few:

- Clients
- Local authorities
- Housing associations
- Housing builders and developers
- Learning establishments
- Estates
- Historical buildings
- Clerk of Works/Construction Inspection private practices
- Architectural practices
- Quantity surveying practices
- Civil engineering practices
- Construction companies
- Construction project management companies
- Property developers
- Banks
- Ministry of Defence
- Utility providers
- Nuclear plants
- Rail companies
- Underground and tunnelling specialists
- Roofing companies
- Mechanical and electrical companies
- Sports venues

Independent third party inspection helps to protect the Client's interests throughout the construction process, therefore when employing/appointing a Clerk of Works, the Client will not only benefit in terms of experience; they will also have the assurance that their interests are being safeguarded. The person appointed will ideally have the ability to:

- Anticipate (identify problems in advance)
- Interpret (clearly)

- Inspect (in detail)
- Record (completely)
- Report (concisely)
- Advise and guide
- Help reduce risk
- Provide guidance on health and safety matters
- Assist in getting it right first time!

Competent Clerks of Works will have:

- A good general understanding of the specific construction inspection process (in particular around the inspection of materials and workmanship)
- An understanding of the obligations of all parties (requirements and boundaries)
- Foresight; i.e. identification of issues/potential issues and the ability to suggest alternative methods or mitigation techniques
- A focus on quality; promoting right first time initiatives, reducing rework and double handling
- Impartiality; with a fair, considered and independent approach to ensuring value for money for the Client
- An awareness of acceptable standards, benchmarking and identifying non-conformance
- The ability to produce concise recordings of their findings
- A professional opinion and will make recommendations to alternative approaches and corrective actions
- Knowledge of construction materials and components, including their use, limitations and possible alternatives
- An understanding and knowledge of the practical and legal aspects of health and safety

When a Clerk of Works is appointed, there are a number of factors that they can focus on. These include:

Compliance – buildings need to be inspected for safety and structural integrity to ensure that they conform to statutory regulations and laws.

Workmanship – needs to be monitored and inspected at regular intervals to minimise problems, defects and rework.

Materials – should be inspected to ensure that they are correct and of a suitable quality to fit their purpose.

Defects – can be minimised and resolved when regular thorough inspection is factored into the construction process.

Recommendations – Clerks of Works can make recommendations to the Client throughout the construction process.

Note: All of the above will depend on what basis the individual is contractually employed.

Code of conduct

Election to, and acceptance of membership of the Institute binds those so elected to this Code of Conduct, and also to the Institute's Memorandum and Articles of Association. This Code of Conduct applies to all members, regardless of grade held, type or status of employment, whether they continue to practice or not and whether they are in membership in the United Kingdom or elsewhere.

All in membership undertake to further the aims and objectives of the Institute to the best of their abilities throughout their period of membership, and to promote and advance the ethos of membership to their colleagues and fellows, and through this encourage them into membership.

All members shall conduct themselves in such a way that the respect, reputation, honour and dignity of the Institute is upheld, maintained and enhanced at all times.

All members shall carry out their professional duties to the highest standards commensurate with the Institute's motto, contained on its Coat of Arms, "Potestate, Probitate et Vigilantia" "Ability, Integrity and Vigilance."

All members shall endeavour to maintain, through CPD or other means, the highest levels of knowledge, both in spirit and deed, to ensure that they are able to comply with the requirements of law as they apply to the construction industry, including, but not restricted to, matters of health, safety and welfare as well as those that relate to the equal and fair treatment of all, regardless of creed, colour, gender, religious belief, sexual orientation or physical impediment.

Members shall never knowingly damage or otherwise harm the name, standing or reputation of others.

THIS CODE OF CONDUCT DOES NOT FORM A PART OF THE
INSTITUTE'S MEMORANDUM AND/OR ARTICLES OF ASSOCIATION

DO YOU NEED TO RECRUIT A CLERK OF WORKS OR SITE INSPECTOR?

For great and immediate results, advertise your recruitment needs within Site Recorder, our monthly full colour 16 page magazine, or on the job section of the ICWCI website. We also share the advert within our very own LinkedIn group and can provide artwork as part of the package!

There are various advertising packages available to suit your every need...

**To discuss your options or to book your space
please call the ICWCI HQ Team on 01733 405160
or email info@icwci.org.**

Wessex Site Inspection Ltd

WSI LTD

Construction Quality Control & Inspection

Devon. Somerset. Avon. Wiltshire. Dorset. Hampshire. Berkshire. Surrey. Sussex.

www.siteinspection.co.uk

Wessex Site Inspection Ltd (WSI) has been providing Clerk of Works and Supervisor roles on NEC contracts since it was established in 1997.

Over the past 24 years, we have provided flexible levels of input and demonstrated value to our Clients by raising issues during the construction process that would otherwise have been overlooked. Such issues usually concern use of sub-standard materials, shortcuts in acceptable building practices, or issues that would have created future maintenance problems & additional costs.

Our team of multi-disciplined inspectors are strategically located across the South of England, and use our own bespoke reporting systems to record factual information & provide an independent view of progress against programme.

A cost effective service.

Independent, on-site inspection is more relevant now than ever before. The costs of engaging a WSI Site Inspector can be adapted to meet budget allowances, whilst still maintaining quality of service. Contact Steve Pollock (*Director*) for a no obligation consultation.

Are you eligible to apply for a membership upgrade?

The answer is quite possibly **yes!**

Have a read through the membership scenarios below to consider if you fit into one of these...

Student Member

Have you been in ICWCI student membership for a considerable period of time? If so, have you increased your construction inspection knowledge, gained new qualifications and/or are practicing in a construction inspection role where you have gained experience and developed your skills further? If so, it would be worth making a call to ICWCI HQ to discuss your upgrade opportunities.

Licentiate Member (LICWCI)

Are you currently a Licentiate member who has continued to develop your construction inspection skills and knowledge? Is so, did you retain the letter that ICWCI sent to you following your membership interview? That letter will have suggested the number of years recommended to you before applying for upgrade. If the suggested number of years has passed, or you did not retain your letter, or you have held Licentiate grade for four or more years, please call ICWCI HQ to discuss your eligibility to upgrade.

Corporate Member (MICWCI)

Are you currently a corporate member of ICWCI who has either held MICWCI grade for not less than 10 years; or is a practicing member who has held MICWCI for not less than 5 years and has also been a Licentiate for a further period of not less than 10 years (making a total period of not less than 15 years)? Are you also able to demonstrate that you support the Institute and take an active part in one of the ICWCI Chapters or Meeting Centres? If so, it would be worth making a call to ICWCI HQ to discuss your upgrade opportunities.

To discuss whether you may be **eligible to upgrade**,
please call or email ICWCI HQ...

Tel: **01733 405160**; email: info@icwci.org

OFFICERS OF THE INSTITUTE

The Institute is governed by a Management Board, comprising of officers and ordinary members. Contact with the Board may be made in writing to ICWCI Headquarters (FAO Chief Executive Officer).

Officers of the Institute 2021-2022

President	Mark Read MICWCI
President Elect	Jerry Shoolbred FICWCI
Past President	Dermot Russell FICWCI
Honorary Treasurer	Ron Philpot MICWCI
Chairman of the Management Board	Charlie Lowrie FICWCI
Secretary	Rachel Morris Hon. FICWCI

Ordinary Members of the Management Board 2021-2022

4 Years	Charlie Lowrie FICWCI
4 Years	Gilly Carr FICWCI
4 Years	Paul Coward FICWCI
3 Years	Alex Mabbott MICWCI
3 Years	Paul Reid MICWCI
2 Years	Ian Carey FICWCI
1 Years	John Ruddell FICWCI

HEADQUARTERS TEAM

The day to day administration and management of the Institute is carried out by a team of staff based at its headquarters in Peterborough.

Chief Executive Officer	Rachel Morris Hon. FICWCI
Finance Manager	Vaughan Jones
Membership Administrator	Joe Kirby
Editor, Communications and Events Organiser	Elysha Summerfield
ICWCI Administrator	Ryte Cepaite

ICWCI MANAGEMENT AND FINANCE HUB

The Institute's Management and Finance Hub is a focal group for matters related to the Institute's accounts and finance. This group meets twice a year to discuss, financial performance, budgets, investments, subscriptions and general office management.

Chief Executive Officer	Rachel Morris Hon. FICWCI
Finance Manager	Vaughan Jones
Honorary Treasurer	Ron Philpot MICWCI

MEMBERSHIP HUB

This Hub covers matters related to membership applications. The group communicates on a regular basis. Whilst the headquarters team carry out the administration related to membership applications, the directors of the Hub assist on a rotational basis to scrutinize, approve applications and sign off assessments.

Chief Executive Officer	Rachel Morris Hon. FICWCI
Membership Administrator	Joe Kirby
Director	Paul Reid MICWCI
Director	Paul Coward FICWCI
Director	John Ruddell FICWCI
Director	Alex Mabbott MICWCI
Past President	Dermot Russell FICWCI

TECHNICAL HUB

The Technical Hub consists of Institute members with varying specialisms. They meet twice a year to discuss technical subject matter. Behind the scenes some of the group research and suggest content that may be appropriate to share with the wider membership. They are also at hand to confer with when technical questions come into headquarters.

Chief Executive Officer	Rachel Morris Hon. FICWCI
President Elect	Jerry Shoolbred FICWCI
Director	Paul Marshall FICWCI
Member	Chris Priestly MICWCI
Member	Spencer Henry MICWCI (Electrical)
Member	John Enright MICWCI (Nuclear)
Member	Steve Farrell MICWCI
Member	Robert Wiltshire MICWCI
CPD Auditor	Rob Neilson MICWCI

COMMUNICATIONS HUB

This group meets to discuss Institute communications. The Presidential Team are key ambassadors for the clerks of works and construction inspection professionals; they meet with the wider membership through the national and regional AGM's and represent the Institute at industry events. Institute publications, communications platforms and events fall under the direction of this group.

Chief Executive Officer	Rachel Morris Hon. FICWCI
Editor, Communications and Events Organiser	Elysha Summerfield
President	Mark Read MICWCI
President Elect	Jerry Shoolbred FICWCI
Director	Ian Carey FICWCI
Director	Charlie Lowrie FICWCI

REGIONAL SECRETARIES

The Institute's regional network provides a vital link for potential and existing members. Regional officers, their supporting committees and interview panels provide fundamental input for the conscription of members. The current secretaries of each ICWCI region are as follows:

Cumbria & North Lancashire	Mike Readman FICWCI	07788 993467
Deeside	Peter Smyth FICWCI	07971 920152
Devon & Cornwall	Joce Matthews MICWCI	07850 243561
Dublin	Alan Lawlor MICWCI	0353 87 7282 070
East Anglia	Colin Baker FICWCI	07775 768138
East Midlands	Mark Poole MICWCI	07469 858355
East of Scotland	Scott Curtis LICWCI	07946 206243
Home Counties North	Jerry Shoolbred FICWCI	07783 479458
Hong Kong	Li Kun Ting, Sam MICWCI	Contact ICWCI HQ
Isle of Man	Chris Mullen MICWCI	07624 497188
London	Robert Stewart MICWCI	07790 967085
Merseyside	David Booth MICWCI	Contact ICWCI HQ
North Cheshire	Pat Kelly MICWCI	07968 381763
North East	Kevin Scott MICWCI	07771 356285

TRUSTEES OF THE ICW BENEVOLENT FUND

Ray Williams FICWCI (Chairman)

Alan White Hon. FICWCI

Ian Carey FICWCI

Richard Fossitt MICWCI

Ron Philpot MICWCI

ICW Benevolent Fund

The Benevolent Fund of the Institute is available to assist persons through financial assistance in their times of need. Applications will be considered and under certain circumstances, grants may be paid to those engaged in the building trade or connected with any person therein. Additionally, donations may be allocated to charitable institutions.

Applications can be made on behalf of the person in need, by their family, a member of the Institute or another person in the building industry.

In the first instance, contact should be made with ICWCI HQ (email info@icwci.org) to arrange for an application to be processed with the Trustees of the Benevolent Fund.

We would like to thank all who donate towards the fund; your donations enable us to assist those who need help. If you feel that you would like to contribute to the fund please send an email to head office.

[Thank you, from the trustees.](#)

Quality Control Management Foundation Degree (Credits) (Accredited by ICWCI & QSi)

**Now Enrolling
for September
2022**

***Industry Practitioners - Be amongst the
first to study on this innovative online
course***

The competitively priced course is aimed at individuals who are employed in Construction, Engineering and M&E, e.g. trades people, site operatives, site managers, quality control inspectors and industry practitioners looking to upskill or are seeking a career change. Individuals who have a minimum of 3 years industry experience or who hold a HNC, City & Guilds level 2/3 or other equivalent experience/qualifications.

Modules are delivered by industry experts and each module can be studied individually (12 weeks), or studied as part of the complete Foundation Degree (Credits) on-line course (over 2 years).

Unique features of this course:

- ❖ The Course is commercially discounted against other University courses
- ❖ Weekly learning material will be sent to you via email
- ❖ Innovating and engaging lecturing strategy includes industry case studies, quizzes, reading material, supported 24/7 by dedicated tutors
- ❖ The weekly tasks contribute to your final grade
- ❖ Weekly feedback provided to all submitted work
- ❖ You will receive a complementary textbook 'Clerk of Works and Site Inspector Handbook'

On completion of this Foundation degree, you can use the 240 credits for direct entry to the final two years of a BSc (Hons) in Construction at University of Wolverhampton.

**Satisfactory completion of the course is a potential pathway towards Licentiate membership of the Institute of Clerk of Works and Construction Inspectorate, and eventually to full membership of ICWCI with the designation MICWCI, subject to acquiring the relevant level and scope of experience to satisfy the competencies specified by ICWCI.*

**For more information about the course contact Suzanne:
qsieducation@theqsi.com

Education

B.Tech in Construction Site Management – TU Dublin

Course Information

Are you qualified in a construction trade? If so, you can apply to study for Bachelor of Technology in Construction Site Management and achieve a construction degree over three years, through a combination of part-time study and experience gained on construction site.

About the Programme

This programme of study is aimed at achieving a Level 7 (Ord. Deg.) qualification as per the National Framework of Qualifications (NFQ) in Ireland (Level 5 NFQ UK equivalent).

This level of qualification is intended to assure that the learner achieves a comprehensive range of skills alongside a detailed theoretical understanding of the subject matter. The programme provides students with knowledge, skills and competencies in the broad areas of construction technology, management, building quantities/contract administration and surveying and levelling processes and procedures in conjunction with Health and Safety issues and other appropriate legislation. It enables career progression in the construction industry in supervisory, management and inspectorate roles.

Entry Requirements: Time-served Tradesperson. Qualification in a construction related trade/craft.

This well-established, degree programme in TU Dublin Bolton Street College is aimed at qualified and experienced building related craft/trade-persons.

Programme Structure

The Programme Modules are structured in such a manner that there is progressive spread of learning throughout the three stages with a common thread of:

- Construction Technology
- Construction Management
- Building Quantities and Contract Administration
- Surveying and Levelling
- Health and Safety
- Academic Research

Students of the programme are offered student membership of ICWCI. Those who avail of this option and retain membership throughout the three years and subsequently graduate with the B.Tech will be eligible to apply for LICWCI.

Accreditation

The Programme is accredited by 'The Institute of Clerks of Works and Construction Inspectorate of GB Inc. (ICWCI) and by 'The Chartered Institute of Building' (CIOB).

CADUK

NVQ Level 6 - Senior Site Inspection Diploma (SSI6)

CADUK (ICWCI Accredited) offers access to the Pearson Edexcel Level 6 NVQ Diploma in Senior Site Inspection (SSI6) via an online and very customer friendly e-assessment route. The work required within the e-assessment reflects on the professional practice and provision of evidence to ensure each learner carries out work to the industry competency standards for their occupation as a Clerk of Works.

There is a 12 month time constraint associated with all our NVQs and achievement is down to an individual's personal motivation to complete their NVQ and this is easily achievable within 1-3 months.

Learners completing this NVQ will have an opportunity to apply for ICWCI membership.

In terms of academic value, this qualification is at bachelor's degree level see: <https://www.gov.uk/what-different-qualification-levels-mean/list-of-qualification-levels>

The cost of this qualification through CADUK is £1850 + VAT.

For further information please visit: <https://www.caduk.co.uk/services/level-6-nvq-diploma-in-senior-site-inspection/> or contact **Gary Pollard MCIQB** gary@caduk.co.uk or **Nick Asprey** at nick@caduk.co.uk or **telephone 01952 287366** and we will professionally guide you through the process and procedures from inception to completion.

Brian Scaddan Associates

Level 6 NVQ Diploma in Senior Site Inspection (L6-SSI)

£1,650.00 plus VAT

Accredited by Pearson's, Brian Scaddan Associates delivers the SSI via an online E-Portfolio platform.

Occupational competency is demonstrated through the submission of evidence, with the support and guidance from one of our dedicated assessors. This qualification can be achieved within 6 to 18 months dependant on the candidate's personal commitment. After successfully completing the NVQ, candidates will be welcome to apply for ICWCI membership.

For further information please contact a member of the team on 01245 967030, email info@bsatraining.co.uk or visit our website www.bsatraining.co.uk

NEC: ECC SUPERVISOR ACCREDITATION

The NEC: ECC Supervisors Accreditation is designed for aspiring supervisors, clerk of works, construction inspectors and architectural technicians. These roles are essential in the impartial assessment of construction and require experience in many facets of the building trade. If you're looking to fulfil the role of Supervisor on an NEC3 or NEC4 ECC project, this is a chance to be recognised by employers and give yourself the unique opportunity to set yourself apart from your industry peers.

The supervisor in an NEC ECC project operates independently of the project manager. They monitor, test and defect, and check compliance with the Works Information. Therefore, it is essential the supervisor is sufficiently experienced. Throughout the course, the NEC experts leading the training will define the role and duties that a supervisor has and explain how to be an effective supervisor.

The two-day training provides a highly interactive, hands on session with emphasis on scenario planning and teaching through case studies to equip delegates with skills necessary to be able to fulfil the supervisor role for an NEC project. Training is available for both NEC3 and NEC4 Supervisor Accreditation pathways.

Successful completion of the programme will give you the option to be listed on the Register of Accredited Professionals, held by the Institution of Civil Engineers (ICE). The accreditation can also be used as an exempting qualification towards the membership of Institute of Clerks of Works and Construction Inspectorate (ICWCI).

For more information on the course including dates and availability: call **+44 (0)20 7665 2446** or visit <https://www.neccontract.com/NEC4-Supervisor>

Clerk of Works and Site Inspector Handbook

Available to purchase!

The Clerk of Works and Site Inspector Handbook provides a practical companion for Clerks of Works, Site Inspectors and anyone with the responsibility of managing construction works on site.

£40.00 (plus P&P)
ICWCI members

£50.00 (plus P&P)
non-members

The Clerk of Works and Site Inspector Handbook is an in depth guide to the role of the Clerk of Works / Site Inspector.

The working group behind this new edition helped incorporate important updates, expand on the trade elements of the role, introduced ecological and environmental aspects, and effective practice for those with a nuclear specialism.

Not losing sight of important content, it explains the traditional Site Inspector / Clerk of Works role and their liabilities, as well as duties and responsibilities linked to a more contemporary construction setting. It includes the relationship between key stakeholders in a construction project and provides valuable insight in to reporting and what to look for, check and test every step of the way.

Containing important lessons for everyone in the construction industry, this handbook will help construction professionals deliver quality buildings.
